<p style="text-align: center;">WP Math Exam Retake Ticket This ticket must be presented before you retake the WP Math Exam</p>
--

Retake Checklist (teacher initials):

___ Math Practice Packet 100% complete

___ Review old test in detail

___ Solve a selected problem without notes (one attempt per day)

- d. You pull into a gas station in Switzerland and fill your rental car with gas. It takes 60.4 L of gasoline and they charge you 105 Swiss Francs. How much were you paying in dollars per gallon? Current exchange rate is 1.38 SF/dollar.
- e. A normal value for blood cholesterol is 200 mg/dL of blood. If a normal adult has a total blood volume of 5 L, how much total cholesterol is present?
- f. A car is rated with a highway gasoline mileage of 41 miles per gallon of gas. How many liters of gasoline will be needed for a highway trip of 555 kilometers?
- g. Suppose that a standard snail's pace is measured to be 0.040 ft per min. Measured in cm per second, what is the value of the snail's pace?
